Office of Chief Trial Counsel Intake
845 South Figueroa Street
Los Angeles, CA 90017

Dear Office of Chief Trial Counsel Intake,

My name is Enri Marini and I am kindly writing to submit an attorney misconduct complaint to the State Bar of California. My complaints are specifically with attorney Hydee Feldstein Soto (City Attorney of Los Angeles), Arturo Martinez (City of Los Angeles Filing Division Head Deputy Supervising Attorney), Jim McDougal (Deputy City Attorney of Los Angeles), Kendrick Lichty Moxon (general counsel for the Church of Scientology), and Leah Saffian (counsel for the Church of Scientology, Jeffrey Epstein family attorney).

I will begin by first addressing my complaint with Hydee Feldstein Soto (City Attorney of Los Angeles), Arturo Martinez (City of Los Angeles Filing Division Head Deputy Supervising Attorney), and Jim McDougal (Deputy City Attorney of Los Angeles).

Hydee Feldstein Soto can be contacted by email via cityatty.help@lacity.org and phone at 213-987-8100. Hydee Feldstein Soto's office is located on 200 N. Main Street, Room 800, Los Angeles, CA 90012-4131 MS 140. Arturo Martinez's office is located on 200 N. Main Street, Room 800, CHE 5th floor, Los Angeles, CA 90012-4131 MS 140 and phone at 213-978-7840. Jim McDougal's office is 200 N. Main Street, Room 800, Los Angeles, CA 90012-4131 and his phone is 213-978-4090.

My complaint with Hydee Soto applies equally to Arturo Martinez and Jim McDougal. My complaint is that Hydee, Arturo, and Jim are colluding with the Church of Scientology to silence protestors by issuing bogus criminal charges to summon protestors into court in order to achieve stay away orders. These bogus criminal charge allegations achieve the issuance of standard conditions for a criminal case in California – namely granting a stay away order from a particular Scientology location, thereby achieving the same result that a Temporary Restraining Order (TRO) would accomplish – effectively destroying the law abiding protestors' ability to peacefully exercise their first amendment right to free speech on public property.

Since October 2023, protests against Scientology gained major online social media attention after local Los Angeles activist named William Gude – better known by his social media handle as FilmThePoliceLA – was accosted by Church of Scientology members while William was peacefully video recording an LAPD stop, which he routinely does to hold the LAPD

accountable. These peaceful protests gained international traction, causing the Church of Scientology to shut down all of its operations worldwide, as protestors are standing up against the child sexual molestation and human trafficking enacted by Scientology. All of the protesting, including that of my own, is captured on live video footage using social media platforms like YouTube and TikTok. This same footage has been the reason why the cases I am about to mention that pertain to protestors have been thrown out for lack of merit & not following proper court procedure.

The Church of Scientology is currently grasping at straws by pursuing frivolous criminal charges to silence law abiding protestors from exercising their first amendment right peacefully on public property. This is because the Civil Court system refuses to grant TROs against people who protest Scientology after seeing this pattern of behavior by Scientology through a series of such frivolous cases. The Church of Scientology has repeatedly lobbied civil suits against protestors to suppress their first amendment rights. This is a pattern of behavior for the Church of Scientology – abuse the legal system to silence their critics. Some recent notable cases that have been won with prejudice local in Los Angeles have been those involving protestors William Gude (FilmThePoliceLA on social media), Scott Hochstetter (D.O.A. on social media), Danny (DannysImpact on social media), and Kamrin (LA_Kam7 on social media).

In the cases of William Guide and Scott Hochstetter, the Church of Scientology made up lies to file SLAPP suits in order to obtain TRO against both William and Scott several times. During court hearings, the TRO were thrown away because the allegations were untrue and Anti-SLAPP countersuits were filed & won by William & Scott against Scientology. The courts have since stopped granting baseless TROs against critics of Scientology.

This has caused the Church of Scientology to shift their abuse of the legal system by trying their hand with the criminal courts. Yet again, we find protestors being unlawfully sent to jail and charged with frivolous complaints of criminal misdemeanor & felony violations without any merits. Protestors Scott Hochstetter, Kamrin, Jasiah, and Danny were sent to jail for bogus criminal charges only to have all their charges get thrown out by the District Attorney and judges due to baseless allegations whereby their respective social media video footage easily proved their innocence. They should have never been jailed in the first place.

The criminal courts are slowly learning about Scientology's abuse of the legal system but it is not happening fast enough. I too am now the victim of one count of a bogus criminal misdemeanor vandalism complaint. The DA's office has stopped granting meritless felony complaints against protestors. Because of this, Scientology is trying to pull the strings of Hydee Soto, Arturo Martinez, and Jim McDougal to issue meritless criminal misdemeanor charges since civil suits and felony charges are no longer being indulged. Several public officials are already under investigation on charges of corruption & collusion with Scientology. Folks like the LADWP CEO Janisse Quiñones for failure & refusal to fine Scientology for recklessly wasting over 100,000 gallons of water, BSS Director Keith Mozee for issuing fraudulent permits for unlawful street closure of a public street (L Ron Hubbard Way) in an attempt to vacate the street to privatize it, as well as Hydee Soto for issuing other bogus criminal charges against

Scientology protestors only to have the charges thrown out due to baseless claims. I personally also went and spoke with 2 FBI agents near my hometown of Buffalo, NY to report this series of corruption by Los Angeles city officials. Thousands of people tuned in to my conversation with the FBI.

Hydee, Arturo, and Jim have full knowledge of Scientology's abuse of the legal system – from improper serving of William Gude and Scott Hochstetter – to prior criminal charges against protestors being dropped – to Scientology attorney Leaf Saffian and Kendrick Moxon not following proper court procedure in filing discoveries and motions in a timely manner with due notice provided to defendants – and yet Hydee, Arturo, and Jim still chose to allow Scientology to levy a bogus misdemeanor vandalism charge against me.

My case involves 1 count of criminal misdemeanor vandalism of plastic netting that was left abandoned on public property without any permits or signage. The truth as shown by countless video footage is that I neatly removed this plastic netting barricade from the public sidewalk piled into a corner and Scientology alleges that this is vandalism.

On June 16th, the date of the alleged vandalism, I had the LAPD called on me 3 times and I spoke to 4 different LAPD officers who responded to the call about these allegations of vandalism. Not 1 of them agreed that I had violated the law. Not 1 of them could and would produce any permits when asked alleging ownership & authority of this plastic netting that was barricading the public sidewalk. 4 different LAPD officers, all of whom were video recorded by several protestors, including myself, and they all came to the consensus that no violations occurred. Yet when Scientology filed a criminal complaint for the 4th time for the same allegation, but this time directly copying in Hydee Soto, Arturo Martinez, and Jim McDougal on their correspondence, they are immediately able to obtain a court summons to prosecute me.

Even worse – there were several other protestors on scene on June 16th doing the same thing I was, yet Hydee and Scientology exclusively chose to selectively litigate against me. I speculate that this is because I am very effective at bringing public awareness to the child sexual abuse and human trafficking enacted by Scientology – much of which is already on the public court record from prior cases levied against Scientology. I have been traveling all across America – from my hometown in upstate NY to the great state of California – to bring awareness to the abuses enacted by Scientology & its leaders.

Hydee, Arturo, and Jim are colluding with Scientology to single me out on a bogus criminal misdemeanor case so that they can obtain a stay away order against me – with the end goal of continuing the case indefinitely to suppress my free speech.

As if this was not bad enough yet, for my case, the original complaint form itself that Hydee issued for Scientology is riddled with typos and looks like a fifth grader wrote it. In fact, Hydee even misspelled the church's name incorrectly. Hydee has displayed gross dereliction of duties and is actively allowing Scientology to make a mockery of the courts. Her continued pattern of behavior of colluding with Scientology, as well as the large fraud scheme that Hydee is involved

with shilling the “Inside Safe” program without any supervision shows an inextricable link to Hydee’s malicious criminal involvement.

She and her aforementioned colleagues must be disbarred for their continued criminal pattern of behavior. Inside Safe is such a corrupt and failed program that even I know about it and I am not even a California resident. \$17,000/month per person and homelessness continues to be on the rise in Los Angeles. Illegally temporarily housing the homeless in LA within unlicensed roach motels is a disgusting human rights violation. Thanks to my large social media following, hundreds of thousands in New York State also know about the corruption taking place with Inside Safe & how Hydee enabled it by colluding with Mayor Karen Bass.

I will now expand on the above by explaining how Leah Saffian and Kendrick Lichty Moxon are involved. Leah Saffian can be found with California license #121796 and resides at Law Offices of Leah Saffian, 2712 Bayside Walk, San Diego, CA 92109 with phone number 858-488-2765 and fax number 818-986-0447. Kendrick Lichty Moxon can be found with California license #128240 and resides at Law Office of Kendrick Moxon, PC, 3500 W Olive Ave, Ste 300, Burbank, CA 91505 with phone number 818-827-7104, fax number 818-827-7114, and email kmoxon@kmoxonlaw.com.

Leah Saffian is a long-time family friend of Ghislaine Maxwell and Jeffrey Epstein, serving as their courtroom fixer. My complaint with Leah is specifically pertaining to protestors William Gude and Scott Hochstetter. Leah served as the attorney for Francoise Kostner, a long-time supporter of Danny Masterson, a Scientologist who is still considered in good standing by despite being convicted of 30 years for the serial rape of Scientology women. Leah represented Francoise in civil suits against Scott Hochstetter and William Gude. Leah grossly failed her duties to conduct due diligence throughout the cases against William and Scott by improperly serving William, attempting to bring about court documents like filing a joinder in untimely manner in attempts to confuse Scott & William, and outright lied about the behavior of Scott and William Gude by claiming they enacted physical threats against her client, which they did not.

Leah Saffian was the attorney who issued bogus SLAPP suits on behalf of Francoise Koster against William Gude and Scott Hochstetter to obtain TROs to suppress their first amendment right. The suit was beaten and both William and Scott filed Anti-SLAPP suits against Francoise Koster, winning their suits but the case should have never resulted in a TRO. Leah improperly served both William and Scott, did not follow procedure for introducing evidence and filings in a timely & orderly fashion, and routinely crafted lies on official court records during both cases. Leah was allowed to carry on with her bogus civil suit and all of these antics are live video recorded by many protestors, including both William and Scott.

My complaints against Kendrick Lichty Moxon are similar to Leah Saffian. Kendrick Moxon, during the case against Scott Hochstetter and William Gude, behaved in the same manner as Leah, with untimely submission of documents before the court, personally preparing paperwork for complainants against protestors despite complainants not being present to bear witness to the scene, and harassing Scientology protestors with baseless TROs. Kendrick Moxon

prepared the police complaint for my current case of 1 count misdemeanor vandalism yet used Alex Ervin's name, a security guard that works directly for Scientology to file a report for an incident that Alex never witnessed.

Kendrick Moxon routinely falsifies court documents and must be investigated to have his license revoked. Kendrick Moxon is a well-known public figure that threatens the wellbeing of Scientology critics through baseless lawsuits and reckless abandon of court procedures.

In conclusion, the actions of these attorneys—Hydee Feldstein Soto, Arturo Martinez, Jim McDougal, Leah Saffian, and Kendrick Lichty Moxon—represent a serious breach of legal ethics and a direct threat to the integrity of the legal system. Their continued misconduct warrants a thorough investigation and appropriate disciplinary action, including potential disbarment, to ensure justice is served and the rights of protestors are protected.

Thank you for your attention to this matter. I hope you uphold the oath you took to hold bad actors lawfully accountable. The whole world is watching – millions of views on this protest movement alone. This is all in addition to the corruption collusion that Hydee Soto has had with Mayor Karen Bass with the Inside Safe Program, which hides under the guise of philanthropy while actively defrauding the public \$17,000 a month per person to temporarily place impoverished people inside illegal roach motels.

Sincerely,

Enri Marini
